LECTURER:

DR M NORDIN BIN ZAKARIA

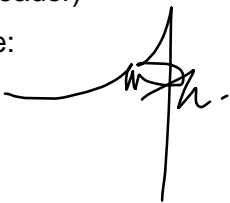

Disclaimer:

We, the undersigned members of UniSantara would like to make it clear that we understand that the group project assignment is to be marked individually, and that each member will receive an individual mark based on their own work.

However, we would like to emphasize that we have worked collaboratively and as a team to complete the project. We believe that our group project was a collective effort, and each member has contributed to its success. Therefore, we hope that you can give same marks to each of our group members instead of giving individual marks.

We appreciate your understanding and consideration on this matter.

Sincerely,
